

## KATZ CONTEMPORARY.....

Zurich's art landscape has just gotten a tad richer with the pre-opening of Katz Contemporary. Currently showing a selection of works from private collections before the actual official opening of the chic new spaces located right next door to Sotheby's only a few steps from the elegant Bahnhofstrasse, the gallery headed by Frédérique Hutter will start with a group show in late January. Katz's first published catalogue includes works by Baselitz, Beuys, Tony Cragg, Peter Doig, Fontana, Gilbert & George, Candida Höfer, Yves Klein, Thomas Struth, Warhol and others.
